

## Using the Student Design Kit for more than one year.

---

**Questions:** Will my students in Transition year who downloaded the software be able to download it again when in 5th and 6th year onto the same machine or is the licence a one time download?

**Answer:** Your Transition Year Students will be able to reactivate the software on an annual basis while in your school as they move between classes.

Details on installing the SDK or re-activating editions of the SDK are on our website.
