

DCG - Autumn 2022

Identifying Geometry to Support Design in SolidWorks

This face-to-face event will focus on identifying geometry of an object, to inform an economical approach, when creating the artefact in SolidWorks.

The workshop will explore how the analysis and investigation of geometry supports students' ability to select and use appropriate features when modelling objects in parametric CAD,

Participants will get the opportunity to consider how to communicate and explain design features, consider economy of design, design intent, and how to graphically represent design ideas through the medium of freehand sketching.

Participants are encouraged to bring their own device where possible.

Date	Time	Venue
Saturday, 8th October 2022	10:00am—3:30pm	Dublin West Education Centre
Saturday, 8th October 2022	10:00am—3:30pm	Monaghan Education Centre
Saturday, 22nd October 2022	10:00am—3:30pm	Cork Education Centre
Saturday, 12th November 2022	10:00am—3:30pm	Galway Education Centre
Saturday, 12th November 2022	10:00am—3:30pm	Laois Education Centre

Book your place online by visiting www.pdst.ie/onlinebooking

Places will be allocated on a first come first served basis so book early to avoid disappointment.
